

Strategic Tool for Accountability Relations (STAR)

For Private
Company
Investment
Relations

STAR is a best practices approach for setting up and managing a private company investor relations web site.

STAR PROVIDES COMPANIES:

- A cost effective web based investor relations site
- Automatic formatting of your web pages
- Control and monitoring over potential investors
 - Track the flow of confidential information
 - Know potential investor interest level
- Keep all potential investors informed of the latest developments
- Guided document preparation
 - For conducting a self-underwriting private placement
 - With templates and samples for modification by corporate legal counsel
- A best practices approach to communication with potential investors
- Positions your company's value for potential exit with merger, acquisition, or future public offering
